FRENCH PRESS

Never again make muddy cups of coffee. Our coffee press has a 4-level filter system with 2 stainless steel screens, spring loaded base, and a lid strainer, all of which keep grounds out. This Borosilicate glass cafetière is dressed up with a wooden lid for a beautiful combination of natural and modern feel.

Maximum temperature recommended: 85°C

TEA MAKER

The ritual of making tea with loose tea leaves is just as much an experience as enjoying the tea itself. Delight and relax yourself as you brew your own cup of tea and watch the leaves brew through the clear glass strainer.

Serving Tip:
Use with our MASTER or KALIX double wall cup and enjoy your hot tea without your hands feeling hot.

SERENE
Tea/Coffee Maker 1000ml
MDR0013

The beautiful teapot made entirely of heat resistant borosilicate glass is the perfect tool for enjoying loose tea leaves.

WINE DECANTER

VINDEL

Wine Decanter 850ml
MRDR0026

Wine Decanter with aerator is an elegant accessory that is equally functional as it is dramatic. Our sleek glass design features a stainless-steel drip-proof spout, a reverse filter and tight silicone seal to prevent any sediment from escaping into your wine.

Wine poured into the decanter is dispersed across the inner decanter bell to optimally aerate the wine, allowing it to 'breathe', which releases more aromatic compounds.

Serving Tip:

Use with KALIX double wall glass 320ml to keep your wine chilled for longer whilst allowing its unique glass shape to enhance your drinking experience at the same time.
